Beginning with the Lynx's entry into service in 1976, it goes on to discuss its remarkable performance in the Falklands War. Here it was used in both its primary roles of anti-submarine and anti-surface warfare, as well as several others for which it had never been designed, such as Airborne Early Warning and anti-Exocet missile counter measures.

An improved Lynx for the Royal Navy, the Lynx HAS.3, had Gem 42-1 Mark 204 engines, an uprated transmission, a new flotation system and an Orange CropESMsystem. The Lynx HAS.3 also received various other updates in service. A similar upgrade to the French Lynx was known as the Lynx Mk.4(FN).

~~Westland Lynx - Wikipedia~~

The AgustaWestland AW159 Wildcat is a British military helicopter. It is an improved version of the Westland Super Lynx designed to serve in the battlefield utility, search and rescue and anti-surface warfare roles. In British service, common variants are being operated by both the Royal Navy and British Army, having replaced their Lynx Mk.7/8/9 predecessors. The AW159 has also been offered to several export customers, and has been ordered by the Republic of Korea Navy and the Philippine Navy.

The Lynx, which has a wheeled undercarriage in maritime form, operates from the small decks of the Navy's frigates and destroyers, as well as the ice patrol ship HMS Endurance. Its primary armament comprises Sea Skua missiles for anti-surface warfare, and Sting Ray torpedoes and depth charges for use against submarines; door-mounted guns can tackle smaller surface targets.

Lots of different nations are continuing to use the Lynx in a maritime capacity with younger versions of the aircraft, we have got the last seven here in the Royal Navy inventory at 815 NAS but we are a squadron that is very much in transition, we have got the last two months now of operating the Lynx alongside the Wildcat so come the 31 st of March the last Lynx will have been taken out of service and we will be an all Wildcat squadron. At the moment we are a 50 percent Wildcat (7 aircraft ...

~~Royal Navy Lynx Retirement - AeroResource~~

The Westland Lynx is a British multi-purpose military helicopter designed and built by Westland Helicopters at its factory in Yeovil. Originally intended as a utility craft for both civil and naval usage, military interest led to the development of both battlefield and naval variants.
