language, this is the method that will finally make the words stick. "A brilliant and thoroughly modern guide to learning new languages."—Gary Marcus, cognitive psychologist and author of the New York Times bestseller *Gitars Zero* At thirty years old, Gabriel Wyner speaks six languages fluently. He didn't learn them in school—who does? Rather, he learned them in the past few years, working on his own and practicing on the subway, using simple techniques and free online resources—and here he wants to show others what he's discovered. Starting with pronunciation, you'll learn how to rewire your ears and turn foreign sounds into familiar sounds. You'll retrain your tongue to produce those sounds accurately, using tricks from opera singers and actors. Next, you'll begin to tackle words, and connect sounds and spellings to imagery rather than translations, which will enable you to think in a foreign language. And with the help of sophisticated spaced-repetition techniques, you'll be able to memorize hundreds of words a month in minutes every day. This is brain hacking at its most exciting, taking what we know about neuroscience and linguistics and using it to create the most efficient and enjoyable way to learn a foreign language in the spare minutes of your day.

This highly regarded work brings together prominent authorities on vocabulary teaching and learning to provide a comprehensive yet concise guide to effective instruction. The book showcases practical ways to teach specific vocabulary words and word-learning strategies and create engaging, word-rich classrooms. Instructional activities and games for diverse learners are brought to life with detailed examples. Drawing on the most rigorous research available, the editors and contributors distill what PreK-8 teachers need to know and do to support all students' ongoing vocabulary growth and enjoyment of reading. New to This Edition*Reflects the latest research and instructional practices.*New section (five chapters) on pressing current issues in the field: assessment, authentic reading experiences, English language learners, uses of multimedia tools, and the vocabularies of narrative and informational texts.*Contributor panel expanded with additional leading researchers.

Simple drawings illustrate a basic sign language vocabulary.

Expand your English vocabulary and build your confidence in speaking! With *Practice Makes Perfect: English Vocabulary for Beginning ESL Learners* you will soon be talking in English as if it were your first language. Inside you will find more than 1,500 commonly used words you hear at work, at school, and on the street, with topics that range from clothing to cooking, and from doctors to digital devices. This new edition also covers numbers, and the many ways that they are talked about in daily life. This reference/workbook explains nouns, verbs, adjectives, and adverbs – and how they will help you learn new vocabulary. Once you master the words in this book, you will find it easier than ever to add new ones to your expanding vocabulary. And

with over 200 exercises to practice what you learn, you will become comfortable using English in everyday situations.

A companion to Teaching Basic, Academic, and Advanced Vocabulary by Robert J. Marzano, this notebook is carefully designed to help students learn and practice more than 2,500 basic vocabulary terms and 2,889 challenge vocabulary terms. Students can use the space provided next to each term to take notes, rate their level of understanding, or draw pictures to help them retain specific word meanings. Use this resource to support students as they acquire the basic and advanced vocabulary terms that are fundamental to English language development: Give students access to charts that will help them learn more than 5,000 vocabulary terms, organized by word clusters. Encourage learners to track their progress as they become more familiar with terms and build their literacy skills. Empower students to take notes and draw pictures to help them remember what each term means. Contents: Introduction 420 Semantic Clusters
