A Short Course in Cloud Physics / Edition 3 by M.K. Yau, R ...

What is cloud computing?. Cloud computing is the process of storing information and data on a network of remote servers, rather than in-house computers or servers. Cloud storage allows for huge amounts of data storage on-demand, plus the ability to recover data after a virus or other large scale digital disaster – known commonly as disaster recovery services.

Cloud Computing Courses - Shortcourses.com.au

As we move in an era where cloud computing is a part of everyday life, cloud security is a must. Understand different areas of cloud security and discuss best practice in this free short course.
