What started as a hobby for Robert H. Correll, turned into a three-generation family business. In 1975, Robert V. Correll took what his father started and perfected it, creating the family business □ Correll Cider Presses® □ as is today. Having built over 4,250 presses, this proud legacy continues with his son Dan and Dan's wife Jill.

[Correll Cider Presses](#)

Your basic, entry-level apple grinder is a hand-crank grinder, often affixed to a basket press. These are typically made of steel or cast iron and consist of a collecting area (hopper), a crank, and a rotating cylinder with embedded teeth which grinds up the apples as they are fed into the hopper.

[Grinding and Pressing Equipment - Cider School](#)

The Macintosh apple cider press is sold exclusively at Pleasant Hill Grain and incorporates design features found nowhere else. Built for quick and easy operation, this apple press features a tip-away frame yoke that gets the forcing screw and pressing plate out of your way for both filling and unloading.

[Buying Guide for Apple Cider Presses - Pleasant Hill Grain](#)

An apple press makes the whole process fun and simple. The press essentially grinds up the apples into pulp and then presses the juices out. Once you get going, the liquid gold keeps flowing. You go from press to glass in 30 seconds!
