Global Health Watch, now in its fourth edition, is widely perceived as the definitive voice for an alternative discourse on health and healthcare. It covers a range of issues that currently impact on health, including the present political and economic architecture in a fast-changing and globalized world; a political assessment of the drive towards Universal Health Coverage; broader determinants of health, such as gender-based violence and access to water; stories of struggles, actions and change; and a scrutiny of a range of global institutions and processes. It integrates rigorous analysis, alternative proposals and stories of struggle and change to present a compelling case for a radical transformation of the way we approach actions and policies on health.

Racism is resilient, duplicitous, and endlessly adaptable, so it is no surprise that America is again in a period of civil rights activism. A significant reason racism endures is because it is structural: it's embedded in culture and in institutions. One of the places that racism hides- and thus perhaps the best place to oppose it- is books for young people. *Was the Cat in the Hat Black?* presents five serious critiques of the history and current state of children's literature tempestuous relationship with both implicit and explicit forms of racism. The book fearlessly examines topics both vivid- such as The Cat in the Hat's roots in blackface minstrelsy- and more opaque, like how the children's book industry can perpetuate structural racism via whitewashed covers even while making efforts to increase diversity. Rooted in research yet written with a lively, crackling touch, Nel delves into years of literary criticism and recent sociological data in order to show a better way forward. Though much of what is proposed here could be endlessly argued, the knowledge that what we learn in childhood imparts both subtle and explicit lessons about whose lives matter is not debatable. The text concludes with a short and stark proposal of actions everyone- reader, author, publisher, scholar, citizen- can take to fight the biases and prejudices that infect children's literature. While *Was the Cat in the Hat Black?* does not assume it has all the answers to such a deeply systemic problem, its audacity should stimulate discussion and activism.

Hats are pure fun and the perfect item to cap off any costume or ensemble. The right headgear ensures complete transformation, especially on the head of an imaginative child. The *Paper Hat Book* offers creative families 20 fantastic paper hats, all of which can be created quickly and easily from readily accessible papers: shopping bags, newspapers, comics, recycled story books, magazines, packaging scraps, and junk mail! Artist and designer Alyn Carlson creates hats that are perfect for birthday parties, playdates, costumes, and everyday dress up. Each hat can be styled to perfectly suit the wearer by merely selecting the right paper and colors. The hat themes range from Floral Flappers to Viking Warriors, and from superheroes and pirates to beautiful butterfly hats.

To commemorate the 150th Anniversary of the end of the Civil War, Diversion Books is publishing seminal works of the era: stories told by the men and women who led, who fought, and who lived in an America that had come apart at the seams. The first entry in the comprehensive collection of the writings from the sixteenth president. This volume cover his years in the Illinois House of Representatives, at the beginning of a nascent political career that would eventually take him into the White House, and the country into its most tumultuous period.

An account of the significant though gradual, uneven, disconnected, ad hoc, and pragmatic innovations in global financial governance and developmental finance induced by the global financial crisis. In *When Things Don't Fall Apart*, Ilene Grabel challenges the dominant view that the global financial crisis had little effect on global financial governance and developmental finance. Most observers discount all but grand, systemic ruptures in institutions and policy. Grabel argues instead that the global crisis induced inconsistent and ad hoc discontinuities in global financial governance and developmental finance that are now having profound effects on emerging market and developing economies. Grabel's chief normative claim is that the resulting incoherence in global financial governance is productive rather than debilitating. In the age of productive incoherence, a more complex, dense, fragmented, and pluripolar form of global financial governance is expanding possibilities for policy and institutional experimentation, policy space for economic and human development, financial stability and resilience, and financial inclusion. Grabel draws on key theoretical commitments of Albert Hirschman to cement the case for the productivity of incoherence. Inspired by Hirschman, Grabel demonstrates that meaningful change often emerges from disconnected, erratic, experimental, and inconsistent adjustments in institutions and policies as actors pragmatically manage in an evolving world. Grabel substantiates her claims with empirically rich case studies that explore the effects of recent crises on networks of financial governance (such as the G-20); transformations within the IMF; institutional innovations in liquidity support and project finance from the national to the transregional levels; and the “rebranding” of capital controls. Grabel concludes with a careful examination of the opportunities and risks associated with the evolutionary transformations underway.
