Codes & Standards ASCE Standards provide technical guidelines for promoting safety, reliability, productivity, and efficiency in civil engineering. Many of our standards are referenced by model building codes and adopted by state and local jurisdiction. They also provide guidance for design projects around the world.

Codes & Standards | ASCE

Code of practice relating to occupational safety and occupational health in civil engineering and the construction industry - includes provisions concerning the work environment and equipment, fire protection, noise, machinery (incl. Building machinery and electrical machinery, ionising radiations, explosives, handling, occupational health, welfare, health services, etc.)

CODE OF ETHICS FOR CIVIL ENGINEERS (PICE)

6. Engineers shall act in such a manner as to uphold and enhance the honor, integrity, and dignity of the engineering profession and shall act with zero tolerance for bribery, fraud, and corruption. This canon can be viewed as a catchall for acts that while not expressly proscribed in other canons nevertheless violate the spirit of the code.

The Seven Fundamental Canons of ASCE's Code of Ethics

Code of practice for composite construction: IS - 3201: Criteria for design and construction of precast concrete trusses. IS - 2204: Code of practice for construction of reinforced concrete shell roof: IS - 2210: Criteria for the design of R.C. shell structures and folded
