recounts the experiences and rationale that led him to create the entirely new profession now recognized and practiced as Construction Management. It evolved from his work as the construction lead of the "owner/builder" firm Tishman Realty and Construction, and his personal role as hands-on Construction Manager in the building of an astonishing array of what were at the time the world's tallest and most complex projects. These include The world's first three 100-story towers---the original "twin towers" of the World Trade Center in Manhattan and the Hancock Tower in Chicago. The Epcot Center at Disney World. The Renaissance Center in Detroit. New York's Madison Square Garden. Building Maintenance Management provides a comprehensive profile of the many aspects of property maintenance. This second edition has been updated throughout, with sections on outsourcing; maintenance planning; benchmarking and KPIs; and current trends in procurement routes (including partnering and the growth of PFI) integrated into the text. There is also a new chapter on the changing context within which maintenance is carried out, largely concerned with its relationship to facilities management. More coverage is given of maintenance organisations and there are major updates to relevant aspects of health and safety and to contract forms.
