Replicates the classroom experience by providing more "I get it" moments outside of class. We've talked to tons of POA instructors and our editors have even taken the accounting course (numerous times!) to figure out the following issue in this course that is consistent: & Students understand (or "get it") right after you do a problem in class, but as soon as they leave class, with each passing hour, their ability to do the problems again and complete their homework diminishes to the point of them either having to come to office hours to get help, or they just quit and get behind in the course. & On top of this, you can end up getting behind in the course as well, in order to keep everyone on track. & The Demo Docs system helps to recreate the "I get it" moments outside of class-keeping both you and

the students on track.

No prior accounting or business knowledge is needed to successfully complete this book. Accounting 4/E pays very careful attention to making accounting information interesting and relevant to the reader. A number of infographics, worked-out examples, charts, and illustrations visually reinforce material. The book provides insight and step-by-step instructions on how business decision makers use financial statements and other forms of accounting information. It illustrates how to navigate through accounting resources on the web. Emphasizes topics in depth while incorporating new real company examples. For those working within accounting or considering accounting/business profession or even those owning a
