Overall, 'Cold Case' has an engaging concept at its core, attempting to brainstorm over the logical and the illogical!

When the spirit of a young male prostitute comes to psychic Tennyson Grimm asking him to find the john who brutally murdered him, Tennyson can't say no. Only able to communicate through the use of images, rather than words, getting any information out of the young man is frustrating and slow going. Cold Case Detective, Ronan O'Mara has been on a roll solving cases since he and Tennyson last teamed up to solve the Michael Frye case. Unfortunately, the red-hot romance that had blossomed between them during that investigation is now off in a ditch, thanks to Ronan's self-confessed pigheadedness. Despite the rift in their relationship, they agree to work together to solve the young ghost's murder. Tennyson and Ronan discover they are in for more than they bargained for when more dead teenagers start to reveal themselves to Tennyson. Realizing they might have a serial killer on their hands, the two men work tirelessly to stop this madman from killing again, but when the killer targets the son of a prominent member of the Boston Police Department, can Ronan and Tennyson save him before it's too late?

Modern technology has given us powerful new tools for an age-old dream: seeing and

Access Free Dead Speak Cold Case Psychic Book 1

speaking with the dead. Using things you probably already own - such as a camcorder, computer, or tape recorder - you can contact departed loved ones or other spirits, record their images and voices, and establish two-way communications between the worlds. Speak with the Dead also details the more traditional methods of seance, trance, and scrying. You don't have to be a "techie" or an occultist to use any of these techniques. This book will guide you to one of the most awe-inspiring experiences you'll ever have - making contact with deceased loved ones and other souls. Speak with the Dead is the first book in the modern marketplace to focus on practical, usable techniques for communicating with spirits. This book shows you seven methods for spirit contact:

- catching Electronic Voice Phenomena on tape
- using radio noise to provide spirits with a voice
- capturing ghostly images on videotape
- letting spirits use your computer or telephone
- scrying, establishing telepathic contact with the dead, and holding a seance

Speak with them. They're waiting.

We all have questions about things that are unknown to us or that terrify us. Well maybe

Access Free Dead Speak Cold Case Psychic Book 1

if we look at the unknown with a critical eye to the facts known to us, we may not be so fearful of things that go bump in the night. So come with me into the unknown, question those things that scare you or that you do not understand. We may find some answers that soothe your fears a bit. Take this tour of the unknown and tickle that spirit of adventure, you may even find that it helps you confront the paranormal with less fear than you would have if you did not read this quest for answers. To find any answers we must first follow the evidence, wherever it leads. So sit back, relax and enjoy the tour into the unknown as investigated by a police detective.

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.
