Jekyll writes that even as he composes his letter he knows that he will soon become Hyde permanently, and he wonders if Hyde will face execution for his crimes or choose to kill himself. Jekyll notes that, in any case, the end of his letter marks the end of the life of Dr. Jekyll. With these words, both the document and the novel come to a close.

Dr. Jekyll and Mr. Hyde Themes are the fundamental and often universal ideas explored in a literary work. The Duality of Human Nature Dr. Jekyll and Mr. Hyde centers upon a conception of humanity as dual in nature, although the theme does not emerge fully until the last chapter, when the complete story of the Jekyll-Hyde relationship is revealed.

Everyone has a dark side. Dr Jekyll has discovered the ultimate drug. A chemical that can turn him into something else. Suddenly, he can unleash his deepest cruelties in the guise of the sinister Hyde. Transforming himself at will, he roams the streets of fog-bound London as his monstrous alter-ego. It seems he is master of his fate. It seems he is in complete control. But soon he will discover that his double life comes at a hideous price...

First published to critical acclaim in 1886, this mesmerising thriller is a terrifying study of the duality of man's nature. This volume also includes a collection of Stevenson's short stories

Robert Louis Stevenson's classic novella paints a dark and complex tale about the duality of man's nature. The story explores this contrast of human character through the strange case of Dr. Jekyll. A kind scientist by day, Jekyll discovers a way to transform into the form of Mr. Hyde by night. With a personality who carries all the hidden evil traits Jekyll disdains, Mr. Hyde becomes more difficult to control just as he perpetrates darker and more vicious deeds. Anticipating modern psychology, Dr. Jekyll and Mr. Hyde is a brilliant original study of man's dual nature-as well as an immortal tale of suspense and terror. The book was an immediate success and remains one of Stevenson's best-selling works.

In a classic story of good and evil, a gentle doctor's experiment into the duality of the soul goes awry and he is transformed into a hideous monster at night. Reissue.

This dark psychological fantasy is more than a moral tale. It is also a product of its time, drawing on contemporary theories of class, evolution and criminality and the secret lives behind Victorian propriety, to create a unique

form of urban Gothic.

In this graphic retelling, scientist Dr. Henry Jekyll develops a potion to separate his good and dark natures--but soon his evil mind takes over and becomes the murderous fiend, Mr. Hyde.

The Strange Case of Dr Jekyll and Mr Hyde is Robert Louis Stevenson's thriller allegory of a medical experiment gone wrong and dual personalities, one the essence of good, the other the essence of evil, fighting for supremacy in one man. Filled with suspense the book has had such an impact in popular culture that the expression "Jekyll and Hyde" has itself become synonymous with extremes of or inconsistent behavior.

The book which put Stevenson's name in the mouth of the ' man in the street,' lifted him at a single bound to a place among men of the time and, by the still greater sensation which it created in America, led to the large income which soon afterwards he drew from the United States. The ear of a great public to whom his earlier writings were unknown was captured by this intense picture of the elements of good and evil in man's nature. It was hailed from pulpits and in the religious press as a great moral parable; though its moral quality, on close analysis, is seen to be more an illusion, due to the art of its writing, than the essence of the fable. Reduced to its simplest formula Jekyll and Hyde is a cry of terror at the potency for evil latent in the human soul. Such moral force as it has depends upon its assault on the nerves, not on its appeal to the heart. If not thus interpreted by the preachers of the time, it yet served the purpose of moving their hearers by the spectacle of the evil partner in the human ego, indulged in a moment ' when virtue slumbered,' coming in the end to destroy the good.

A humane scientist attempts to explore the most loathsome forces of evil behind the doors of his London laboratory
