Nissan Langley C1441 Engine Trouble Code. When the check engine light comes Nissan Langley C1441 code on the first you should check is the gas cap. Pull over, retighten it, and take a look at the cap to see if it has any cracks in it. Continue driving and see if the check engine light turns off.

~~Nissan Langley C1441 Engine Trouble Code - Nissan Langley ...~~

Nissan Langley P1330 Engine Trouble Code When your car's 'Nissan Langley P1330 Check Engine' light comes on, it's usually accompanied by a sinking feeling in the pit of your stomach. The light could mean a costly problem, like a bad catalytic converter, or it could be something minor, like a loose gas cap.

~~Nissan Langley P1330 Engine Trouble Code - Nissan Langley ...~~

Nissan Langley C1546 Possible Solution : The crankshaft sensor signals the fuel injection computer or the ignition control when the cylinders are firing. This causes the ignition coil to provide a spark and the injector to inject fuel into each cylinder at the right time. If either sensor isn't working correctly, the car will run rough and the engine will be less efficient.

~~Nissan Langley C1546 Engine Trouble Code - Nissan Langley ...~~

When you check Nissan Langley car engine light came on code P1462 the reason should be Engine Light ON (or Service Engine Soon Warning Light). However manufacturer may have a different definition for the P1462 OBD-II Diagnostic Powertrain (P) Trouble Code. So you should check it on our car models.
