Kiva Fellow ready to explore the world! When I write this, I have just arrived in my new hometown for the next four months, Kigali, the capital of Rwanda. Slowly I am getting used to being in one place for more than two consecutive weeks after having spent the past few months travelling over three continents to twelve countries with more than 200 hours on at least forty flights.

Exploring the World of Music shows how elements such as melody, rhythm, and texture create an infinite variety of sounds and serve as expressions of culture. Through rare archival footage and contemporary performances, the series presents themes such as music and the environment, music as cultural memory, and how technology changes music.

Wikings

on. The many advancements and branches of mathematics were developed through the centuries as people encountered problems and relied upon math to solve them. For instance: What timely invention was tampered with by the Caesars and almost perfected by a pope? Why did ten days vanish in September of 1752? How did Queen Victoria shorten the Sunday sermons at chapel? What important invention caused the world to be divided into time zones? What simple math problem caused the Mars Climate Orbiter to burn up in the Martian atmosphere? What common unit of measurement was originally based on the distance from the equator to the North Pole? Does water always boil at 212?
