| Germany | ICLG

In 1982 the German federal legislative body replaced the confusing mass of state mining regulations with a single unified, albeit not definitive, regulatory regime in the form of the Federal Mining Act (BBergG). This serves

Access Free Germany

mainly to underpin
the secure supply of
raw materials with
more efficient
licensing and
approval procedures
and prioritises the
extraction of raw
materials over other
overriding interests of
the common good.

are formulated to strengthen control over gold and silver, to guarantee the State's gold and silver requirements for its economic development and to outlaw gold and silver smuggling and speculation and profiteering activities.
Article 2.

Access Free Germany

REGULATIONS ON THE CONTROL OF GOLD AND SILVER

Mining companies have been subjected to many new regulations and legislation over the decades. Since the late 19th century, a range of new laws to regulate mining have been passed at state and federal levels.

Access Free Germany

While some were essential, others placed a huge burden on mining operations. Safety Legislation
