Britain's has a long, distinctive history producing farm model tractors for collectors, young and old, around the world. This book is the first comprehensive, fully illustrated guide for collectors of the model and toy tractors produced by Britain's in the ten years since it transferred all production to China. The book describes all the model tractors released in North America and Europe since 1998. As well as general releases it includes details and photographs of prototype and rare models. This is complemented by a catalogue describing the main features, differences, issue dates and codes of each model produced. Each is illustrated with six color photographs showing the model from different angles and the issue packaging.

With hundreds of full-color photographs, hand-drawn illustrations, and custom maps that illuminate every page, DK Eyewitness Travel Guide: Beijing and Shanghai truly shows you these cities as no one else can.

Since its introduction in 1979, CHEAPO, a computer based economic analysis program, has allowed users of the Stand Prognosis Model to evaluate silvicultural alternatives from an economic point of view. Subsequent modifications to the Prognosis Model have rendered CHEAPO obsolete. This users guide covers a new computer model, CHEAPO II, which is compatible with version 5.1 of the Prognosis Model and expands its economic analysis capabilities.

An introduction to one of the core methods of approaching biblical texts.
