The 3-volume set LNCS 9731, 9732, and 9733 constitutes the refereed proceedings of the 18th International Conference on Human-Computer Interaction, HCII 2016, held in Toronto, ON, Canada, in July 2016. The total of 1287 papers and 186 posters presented at the HCII 2016 conferences and were carefully reviewed and selected from 4354 submissions. The papers thoroughly cover the entire field of Human-Computer Interaction, addressing major advances in knowledge and effective use of computers in a variety of application areas. The volumes constituting the full 27-volume set of the conference proceedings.

Why are some countries rich while others are poor? Why are some well governed while others experience frequent conflict? And how do you measure a country's true success anyways? Social scientists have attempted to answer these types of questions for decades, and have increasingly turned to data for this task. Researching Developing Countries: A Data Resource Guide for Social Scientists serves as a reference guide for social scientists and students interested in answering these complex questions. The book will also be helpful to

librarians serving the social science disciplines. Topics covered in the book include: human development, economics, governance, conflict, demographics, migration and refugees, environment, foreign aid, energy and infrastructure, innovation and entrepreneurship, geography and urban development, and public opinion. Covers over 30 countries with emerging markets Explores a wide array of topics for each country and their investment opportunities Includes a focus on international audiences as the book expands beyond the US market
