Students respond powerfully to literature when it explores issues that matter to them, such as how love can be compromised by the demands of tradition, how authoritarian injustice can be resisted, and how popular culture influences behavior. And when students learn to analyze and argue for how literature engages such issues and exerts such power, they develop and hone their critical thinking and writing skills. In its fifth edition Making Literature Matter continues to deliver on the promise of its title. Its thematic anthology gathers memorable stories, poems, plays, and essays into unique literary clusters addressing issues that rouse passionate responses in students. At the same time, its comprehensive rhetoric shows students how to harness those responses into thoughtful arguments about the issues raised by the clusters and the literature. Read the preface. The little book that demystifies academic writing, reading, and research.

The Fifth Edition retains the flexibility and breadth of selection that has defined this classic anthology, while improved and expanded editorial apparatus make it an even more useful teaching tool.

Thoroughly revised, reorganized, updated, and expanded, this widely-used text sets the balance and fills the gap between theory and practice in public policy studies. In a clear, conversational style, the author conveys the best current thinking on the policy process with an emphasis on accessibility and synthesis rather than novelty or abstraction. A newly added chapter surveys the social, economic, and demographic trends that are transforming the policy environment.

How to Read a Paper describes the different types of clinical research reporting, and explains how to critically appraise the publications. The book provides the tools to find and evaluate the literature, and implement the findings in an evidence-based, patient-centered way. Written for anyone in the health care professions who has little or no knowledge of evidence-based medicine, it provides a clear understanding of the concepts and how to put them into practice at the basic, clinical level. Changes for the 4th edition The fourth edition will include two new chapters on important developments in health care research and delivery, but otherwise retains its original style, size, and scope. New chapter on quality improvement - describing papers on quality improvement projects using ebn methods; this will extend the readership to non clinical health care professionals working in hospitals and family practice, and to nurse specialists and practice nurses working in this field New chapter on complex interventions - how to set up research projects involving both qualitative and quantitative methodology (known as mixed methods) Thorough revision and updating of existing chapters and references New illustrations - diagrammatic representations of ebn concepts

Visualizing Nutrition teaches students to identify and connect the central elements of nutritional science using a visual approach. As students explore important nutrition topics, they are immersed in content that not only provides scientific understanding, but demonstrates relevance to their personal lives. Students are challenged and taught the decision-making skills needed to navigate the countless choices they will face in promoting their good health and preventing disease. Visualizing Nutrition's critical thinking approach with a solid underpinning of the scientific process empowers students to be knowledgeable consumers when faced with decisions about what to eat.

Decision Analysis for Management Judgment is unique in its breadth of coverage of decision analysis methods. It covers both the psychological problems that are associated with unaided managerial decision making and the decision analysis methods designed to overcome them. It is presented and explained in a clear, straightforward manner without using mathematical notation. This latest edition has been fully revised and updated and includes a number of changes to reflect the latest developments in the field.

More and more, first- year writing courses foreground skills of critical analysis and argumentation. In response, Arguing about Literature first hones students' analytical skills through instruction in close critical reading of texts; then, it shows them how to turn their reading into well-supported and rhetorically effective argumentative writing. From the authors of the groundbreaking and widely adopted Making Literature Matter, Arguing about Literature economically combines two books in one: a concise guide to reading literature and writing arguments, and a compact thematic anthology of stories, poems, plays, arguments, and other kinds of texts for inquiry, analysis and research. The second edition includes even more instruction in the key skills of argumentation, critical reading, and research, while linking literature more directly to the newsworthy current issues of today.
