San Diego in the years before World War II. James Dillon is barely scraping by working a menial job in manufacturing, trying to raise a family and support his elderly mother and sister Frankie at the same time. He drinks too hard -- just like his father and nearly everyone in his extended family. With so many people crammed into one home, sometimes there's so much fighting he can barely stand it. But if James can survive the chaos of everyday life long enough, maybe -- just maybe -- there's a chance it'll all get better. Now and on Earth, Jim Thompson's first novel, draws on personal experience to depict a hardscrabble life in the sun-soaked streets of mid-20th century California. Chronicling the birth of a

nothing but a commodity. A far cry from when I had just turned eighteen and after intense vetting and negotiations, my father had proudly announced that he'd placed me with the Whiskey River pack. No one could dispute that it had been a good placement, as I'd spent the next four years being spoiled and cosseted by my Alpha. Four years of sharing his life, whimpering under his touch, and raising the pups that we had created together only to find myself here. Pregnant and alone, abandoned by the Alpha who'd sworn to make me his own. DreyHell and damnation! My opportunity to make a good first impression on my new Omega and damned if my grand entrance hadn't gone unnoticed. Both Omegas present were intently

focused on the dragon in the room. Not only that, but the bastard had a firm grip on the neck of the sweet little redhead I had just purchased. I wasn't one to cling to the old adage that wolves and dragons had to be enemies, but seriously. Damn dragon. One unwanted Omega plus one eager Alpha, it should be simple, right? When Kenny's former Alpha attempts to re-stake his claim, the complications mount with Kenny the grand prize in The Mating Game.

A rich collection of vivid photographs, capturing images of the homes, cultures, people, and streets of the communities of the Cape Flats. Working during the late 1980s, Ledochowski highlights the vibrant

cultures of the area. "Cape Flats" refers to the vast stretch of exposed sandy wetlands that lie north of Table Mountain and which now forms a large part of the metropolitan region of Cape Town. Racked by the harsh south-easter and frequently flooded in winter, the Cape Flats is highly unsuitable for residential purposes. But today it has become home to close on a million people. It was here that the apartheid government forcefully removed and restricted the 'non white' population of Cape Town under the Group Areas Act. The creation of the 'Townships', defined by the Oxford Dictionary as "planned urban settlements of Black Africans or Coloreds", represented apartheid's attempt to plan, control, and regulate the

lives of the Black majority. Far from being simply art-for-art's sake, much of this creativity is essentially functional and inextricably linked to the social fabric of the townships. For example, a decorative mural is on a wall that holds up a house; an artistic shebeen sign points people to a place of social activity; a display of religious paraphernalia provides the setting for a "home church". This documentary project was in no way an attempt at appropriating cultural artifacts from the townships. The creativity explored here does not offer any catalogue of township art available in the city's art galleries or craft markets, nor should it be read as an itinerary for an authentic township tour. It is rather an attempt to respectfully reveal aspects

of our township culture that have hitherto remained largely hidden as peoples' protected spaces.

It's not easy being an ordinary teenager leading a hazardous and exciting double life. The Garmaurians, the most advanced species in the universe, wiped themselves out with a bio-weapon in a senseless civil war. And, in a desperate attempt to protect the secret of the potentially dangerous Trion technology - the ability to manipulate the fundamental particle of the universe - their leader sends one last covert mission to Earth. The mission goes horribly wrong, leaving Billy Caudwell; an overweight, acne-scarred 14 year old, with the Mind Profile of a military genius, a huge

battle fleet and a mission to unite the intelligent species of the universe in a Universal Alliance. With people to rescue, space fleets to battle and villains to defeat, Billy has to overcome his own inhibitions, insecurities and a vicious bully before he can start saving the universe. Welcome, dear readers, to the exciting universe of First Admiral.

Esther Amini grew up in Queens, New York, during the free-wheeling 1960s. She also grew up in a Persian-Jewish household, the American-born daughter of parents who had fled Mashhad, Iran. In CONCEALED she tells the story of being caught between these two worlds: the dutiful daughter of tradition-bound

parents who hungers for more self-determination than tradition allows. Exploring the roots of her father's deep silences and explosive temper, her mother's flamboyance and flights from home, and her own sense of indebtedness to her two Iranian-born brothers, Amini uncovers the story of her parents' early years in Mashhad, Iran's holiest Muslim city; the little known history and persecution of Mashhad's underground Jews; the incident that steeled her mother's resolve to leave; and her parents' arduous journey to the United States, where they found themselves facing a new threat to their traditions: the threat of freedom. Determined to protect his only daughter from corruption, Amini's father prohibits

talk, books, higher education, and tries to push her into an early Persian marriage. Can she resist? Should she? Focused intently on what she stands to gain, Amini eventually comes to see what she also stands to lose: a family and community bound together by food, celebrations, sibling escapades, and unexpected acts of devotion by parents to whom she feels invisible. In this poignant, funny, entertaining and uplifting memoir, Amini documents with keen eye, quick wit, and warm heart, how family members build, buoy, wound, and save one another across generations; how lives are shaped by the demands and burdens of loyalty and legacy; and how she rose to the challenge of deciding what to keep and what to

A great read for fans of PBS's Poldark and Downton Abbey—first in the saga of a man returning from battle to an estate in the pre-WWI English countryside. After serving his country in the Boer War, injured Lieutenant Paul Craddock returns to England to resume civilian life. But things have changed since he joined the Imperial Yeomanry three years ago. His father has died, leaving Paul as heir to a scrap metal business he has no intention of continuing. Instead, he purchases an auctioned-off thirteen-hundred-acre estate in a secluded corner of Devon. Neglected and overgrown, Shallowford becomes the symbol of all that Paul has lost—and a reminder of the gentle place

his homeland once was. And here, on this sprawling stretch of land, he will be changed by his love for two women: fiercely independent Grace Lovell, and lovely, demure Claire Derwent. Set in the English countryside in the first part of the previous century—from the long “Edwardian afternoon” following the death of Queen Victoria, to the gathering storm of World War I—*Long Summer Day* is the story of a man, his family, and a people struggling to adapt to life in a new world. *Long Summer Day* is the first novel in R. F. Delderfield's saga *A Horseman Riding By*, which continues with *Post of Honour* and *The Green Gauntlet*.
