Learn about the inspiring life and career of professional football player and activist Colin Kaepernick in the new Who HQ Now format featuring newsmakers and trending topics. On August 14, 2016, NFL quarterback Colin Kaepernick began a protest when he refused to stand for the national anthem. He wanted to make a statement about the oppression of people of color in the United States after he had spent a summer speaking out against police brutality. After playing professional football for six seasons, that would become Colin Kaepernick's last season in the NFL, but he would go on to become one of the most prominent activists of today. Colin believed that speaking out against racism was far bigger than football, and other athletes agreed with him. Today, hundreds of athletes -- from high schools to professional teams -- still kneel during the national anthem to protest the treatment of people of color in America. This is Colin Kaepernick's story.

This fearless debut novel explores racism, injustice, and self-expression through the story of a promising Black football star in Louisiana. The system is rigged. For guys like Russell Boudreaux, football is the only way out of their small town. As the team's varsity tight end, Rus has a singular goal: to get a scholarship and play on the national stage. But when his best friend is unfairly arrested and kicked off the team, Rus faces an impossible choice: speak up or live in fear. "Please rise for the national anthem." Desperate for change, Rus kneels during the national anthem. In one instant, he falls from local stardom and becomes a target for hatred. But he's not alone. With the help of his best friend and an unlikely ally, Rus will fight for his dreams, and for justice.

A history of the activism and achievement of African American athletes from Jesse Owens to Serena Williams to Colin Kaepernick, who advanced the cause of social justice through their outspokenness, commitment, and integrity. Muhammad Ali refused to fight in a war he believed was immoral. Wilma Rudolph retired from track and field to campaign for civil rights. Colin Kaepernick took a knee during the national anthem to draw attention to the oppression of black bodies. Taking a Knee, Taking a Stand tells their stories and the stories of other prominent African American male and female athletes who often risked their careers to fight racial discrimination and promote social justice. From Jackie Robinson breaking the color line in major league baseball to NBA great Bill Russell sitting at the feet of Dr. Martin Luther King at the 1963 March on Washington to Althea Gibson asserting her tennis dominance at a time when many clubs would not allow African Americans to play on their courts, this moving and celebratory history shows how the tradition of black protest in sports has been consistent, necessary, and organic, and that the present crisis of misunderstanding and intolerance demands that this tradition continue as the country struggles toward fairness and equity.

With a Foreword from a survivor of the Parkland school shooting, this lushly illustrated picture book introduces young readers to America's most influential protesters, from Harriet Tubman and Martin Luther King Jr. to Colin Kaepernick and Jazz Jennings. Full color.

Profiles the life and career of professional football player Tom Brady.

In *Whats My Name, Fool?* sports writer Dave Zirin shows how sports express the worst - and at times the most creative, exciting, and political - features of our society. Zirin's sharp and insightful commentary on the personalities, politics, and history of American sports is unlike any sports writing being done today. *Zirin* explores how NBA brawls highlight tensions beyond the arena, how the bold stances taken by sports unions can chart a path for the entire labor movement, and the unexplored political strings of a new generation of athletes who are no longer content to just "play one game at a time." *Whats My Name, Fool?* draws on original interviews with former heavyweight champ George Foreman, Olympic athlete John Carlos, NBA player and anti-death penalty activist Etan Thomas, antiwar womens college hoopster Toni Smith, Olympic Project for Human Rights leader Lee Evans and many others. It also unearths a history of athletes ranging from Jackie Robinson to Muhammad Ali to Billie Jean King, who charted a new course through their athletic ability and their outspoken views.

From the #1 New York Times bestselling series comes the latest title in the Who HQ Now format for trending topics. It tells the history of a political and social movement that advocates for non-violent civil disobedience and protests against incidents of police brutality--and all racially motivated violence--against Black people. When a Black teenager named Trayvon Martin was senselessly killed in 2012, the African American community called for his murderer to be held accountable. But like many other racially sparked incidents in the past, his killer walked free. People looked for justice and healing in the moment. They turned to social media and a simple yet powerful hashtag emerged, #BlackLivesMatter. The message grew into an international movement and has now become the rallying cry during protests against police brutality and racial acts of violence. The movement gained even more attention and support in 2020 when it called for police reform in the United States after the police-related murder of George Floyd.
