Learn to build and implement a robust Oracle E-Business Suite system using the new release, EBS 12.2. This hands-on, real-world guide explains the rationale for using an Oracle E-Business Suite environment in a business enterprise and covers the major technology stack changes from EBS

Online Library Oracle Projects

Implementation
Guide R12

version 11i through R12.2. You will learn to build up an EBS environment from a simple single-node installation to a complex multi-node high available setup. Practical Oracle E-Business Suite focuses on release R12.2, but key areas in R12.1 are also covered wherever necessary.

Detailed instructions are

Online Library Oracle Projects

Implementation
Guide R12

provided for the
installation of EBS

R12.2 in single and
multi-node

configurations, the logic
and methodology used
in EBS patching, and
cloning of EBS single-
node and complex multi-
node environments
configured with RAC.

This book also provides
information on FMW
used in EBS 12.2, as

pp/pp/pp/pp/pp/p

Developers, data architects, and data scientists looking to integrate the most successful big data open stack architecture and how to choose the correct technology in every layer

Oracle's E-Business Suite Human Capital Management enables

Online Library Oracle Projects

Implementation
Guide R12

organizations to architect a global foundation for HR data and improved business processes. The book starts by introducing Oracle Application E-Business Suite, its architecture, and how to set up the preliminary components such as roles, groups, and profile options. As you progress through the

Online Library Oracle Projects

chapters, you'll learn to define common data from an enterprise perspective, such as the unique structures for jobs, positions, job groups, and other business entities. As we move from learning the core HR structures, you'll learn to implement people management concepts such as maintaining

Online Library Oracle Projects

Implementation,
identifying assignments,
managing assignments
of personnel, changing
assignments, and
terminating an
assignment or employee.
By the end of this book,
you will have a
thorough knowledge of
implementing a fully
functional HR system
based on strategic
business needs, along

Online Library Oracle Projects

with a detailed
understanding of the key
functions and benefits of
Oracle HCM.

Global Business

Intelligence refers to an organization ' s ability to gather, process and analyze pertinent international information in order to make optimal business decisions in a timely

Online Library Oracle Projects

manner. With a
challenging economic
and geopolitical
environment, companies
and executives need to
be adept at information
gathering in order to
manage emerging
challenges and gain
competitive advantages.
This book Global
Business Intelligence
assembles a cast of
international experts

Online Library Oracle Projects
