Causal Exclusion Counter-Argument. Causal exclusion is only a problem for mental causation if you are an advocate for physicalism. Jaegwon Kim's causal exclusion argument states that if all physical effects have sufficient physical causes, and no physical effects are caused twice over by distinct physical and mental causes, there cannot be any irreducible mental causes (Kallestrup 2006).

Physicalism and Mental Causation: Amazon.co.uk: Sven

Giving an account of mental causation has been, for the past three decades, one of the main preoccupations of philosophers of mind who are committed to physicalism in one form or another. The problem, of course, is not new: As every student of western philosophy knows, Descartes, who arguably invented the mind-body problem, was confronted forcefully by his contemporaries on this issue.

Mental Causation and Consciousness: The Two Mind-Body

Book Description: Physicalism is the thesis that everything there is in the world, including our minds, is constituted by basic physical entities. It has dominated the philosophy of mind during the last few decades. But although the conceptual foundations of the physicalist agenda—including a proper explication of notions such as [causation], [determination], [realization] or even [physicalism] itself—must be settled before more specific problems (e.g. the problems of mental ...

PDF | physicalism and mental causation Download

Physicalism and mental causation (Part I) Debate by Death Monkey (Philosophy Forum) [Quote by Minty] read that the original motivation for materialism was a need to explain the place of mental causation in the physical world. So if a decision is identical to some process in the brain, then mental causation can be said to exist.

Physicalism and mental causation - pages.uoregon.edu

Focusing on the mental-to-physical cases, Kroedel explores what various views in contemporary metaphysics of mind imply about the possibility of mental causation. Mental causation -- in particular causation of physical effects by mental causes -- is often taken to be problematic, or even mysterious, especially if one takes the putative mental causes to be non-physical entities of some sort.

Physicalism and Mental Causation: Walter, Sven, Heckmann

Questions about the existence and nature of mental causation are prominent in contemporary discussions of the mind and human agency. Originally, the problem of mental causation was that of understanding how an immaterial mind, a soul, could interact with the body. ... 2003, Physicalism and Mental Causation: The Metaphysics of Mind and Action ...

Mental Causation (Stanford Encyclopedia of Philosophy)

Mental causation: The mind and the body causally interact | thoughts, feelings, and perceptions, bring about bodily actions. Spatial location: Wherever there is causation, the cause and its effect must have spatial location. Dualism: The mind has no spatial location | there is no spatial location to thoughts, feelings, or perceptions.

Physicalism and Mental Causation | Amazon.com.br

there is genuine mental causation only if some mental events have physical effects. But mental-to-physical causation leads to the following well-known problem for non-reductive physicalism. If mental events cause physical events, then they merely overdetermine their effects due to the causal closure of the physical.
