Leadership style and the most important skills necessary to become good leaders in the nursing context. The contextual focus of this essay is on the recent reorganization of service in a surgical unit within a district community hospital in Wales.

Reflective Essay on Nursing Leadership - Smart Writer
Many recently retired nurse leaders tell me that one of the joys of retirement has been the gift of time to reflect on their leadership practice and lessons learned during their leadership career. Too often while working, leaders either make

As the health care field moves into the 21st century, the discipline is moving into new forms of service and leadership. This article presents a view of Nightingale as a transformational leader from the vantage point of personality and from inspired commitment to social action. Values, beliefs, and the changing roles of nursing leadership in creation of new order are examined along with skills and capacities necessary to accomplish the task at hand.
