Research methods

Online Library Research

Methods in Information
are specific procedures for collecting and analyzing data. Developing your research methods is an integral part of your research design. When planning your methods, there are two key decisions you will make.

Online Library Research

First, decide how you will collect data. Your methods depend on what type of data you need to answer your research question:
Qualitative vs. quantitative:
Will your data take the form of words or

Research Methods
– Resources for
students

Online Library Research

Research is based on logical reasoning and involves both inductive and deductive methods. The data or knowledge that is derived is in real time from actual observations in natural

Online Library Research

settings. There is an in-depth analysis of all data collected so that there are no anomalies associated with it. Research creates a path for generating new questions.

What is
Research-

Online Library Research

Definition, Types, Methods & Examples

Quantitative
outcome research
is mostly
conducted in the
social sciences
using the
statistical
methods used
above to collect
quantitative
data from the

Online Library Research

research study.
In this research
method,
researchers and
statisticians
deploy
mathematical
frameworks and
theories that
pertain to the
quantity under
question.
