a functional concept in mind, a notion that most have traced to John Locke's definition of self in his Essay on Human Understanding as "a thinking intelligent being, that has reason and reflection, and can consider itself, the same thinking thing, in different times and places.". Such a functional conception of personhood is ...

~~Catholic Social Teaching: The Human Person is Made in the ...~~

Thomistic philosophy has a profound understanding of what it is to be a human person. It explicitly elaborated that human person is a substance-in-relation which essentially has two dimensions ‘ substantial and relational. In the substantial dimension, man as human person is considered as the concrete I, an individual existing being who is self-subsistent, self-oriented and a self-purposed individual endowed with rationality.
