The Unseen Hand as the cover of the book states is "An Introduction of the Conspiratorial View of History". The major problem with the book however is that it can quickly turn a person off of the conspiratorial view of history. Epperson draws conclusions that aren't warranted.

"It is the contention of the author that the major events of the past, the wars, the depressions and the revolutions, have been planned years in advance by an international conspiracy."--Page 4 of cover.

This book illuminates the real effects of regulations on people ' s everyday lives. It traces the effects of regulations on an economy by working through the ripple effects of changes. In so doing, the book provides a fundamental understanding for the economy as an organism rather than a machine, and enlightens the reader by offering a model for understanding the economy and market. Regulations, which are restrictions placed on the working of the economy, have consequences, both intended and unintended, direct and indirect. While the direct effects are well understood, the indirect effects are often overlooked because they don ' t fit with the machine understanding of an economy. More to the point, this book emphasizes the real effects of regulation and market change on individual actors, thereby stressing how the economy works to provide an individual with the options that exist in choice situations. We draft a new definition of prosperity and well-being which focuses on the individual ' s access to valuable alternatives. From this point of view, the real implications of regulation are traced step by step, following the logic of exchange and the effects on individual actors rather than the economy as a whole.

Hundreds of stunning images from black history have long been buried in The New York Times archives. None of them were published by The Times--until now. UNSEEN uncovers these never-before published photographs and tells the stories behind them. It all started with Times photo editor Darcy Eveleigh discovering dozens of these photographs. She and three colleagues, Dana Canedy, Damien Cave and Rachel L. Swarns, began exploring the history behind them, and subsequently chronicling them in a series entitled Unpublished Black History, that ran in print and online editions of The Times in February 2016. It garnered 1.7 million views on The Times website and thousands of comments from readers. This book includes those photographs and many more, among them: a 27-year-old Jesse Jackson leading an anti-discrimination rally of in Chicago, Rosa Parks arriving at a Montgomery Courthouse in Alabama a candid behind-the-scenes shot of Aretha Franklin backstage at the Apollo Theater, Ralph Ellison on the streets of his Manhattan neighborhood, the firebombed home of Malcolm X, Myrlie Evans and her children at the funeral of her slain husband , Medgar, a wheelchair-bound Roy Campanella at the razing of Ebbets Field. Were the photos--or the people in them--not deemed newsworthy enough? Did the images not arrive in time for publication? Were they pushed aside by words at an institution long known as the Gray Lady? Eveleigh, Canedy, Cave, and Swarns explore all these questions and more in this one-of-a-kind book. UNSEEN dives deep into The Times photo archives--known as the Morgue--to showcase this extraordinary collection of photographs and the stories behind them.

A tour-de-force of a debut that blends classic fantasy -- the fascinating, frightening, sometimes-invisible world of the djinn -- that's genies to some of us -- with the 21st-century reality of a super-hacker in mortal danger in a repressive security state on the Arabian Gulf. Alif (that's his handle) is a brilliant young superhacker working out of his mother's small apartment, and his computer has just been breached. While Alif scrambles to protect his clients -- dissidents and outlaws alike, whoever needs to hide their digital traces, he and his friends realize that they've been found by 'the Hand' -- maybe a person, maybe a program, but definitely able to find anyone, and that could lead to prison, or worse. Alif, with the help of his childhood friend Dina, an ancient book sent to him in secret by his lost love (who may be frighteningly connected to the Hand) and a terrifying protector who almost looks human, must go underground -- or rather, find a way into the hidden world of the djinn. They wrote the mysterious book centuries ago, and have knowledge that might just allow Alif to infiltrate the most sophisticated information technology the world has ever seen, and perhaps save himself, his loved ones, and freedom itself. With shades of Neil Gaiman, Philip Pullman, William Gibson, and the timeless Thousand and One Nights, Alif the Unseen is a tour-de-force debut with major potential -- a masterful, addictive blend of the ancient and the more-than-modern, smuggled inside an irresistible page-turner.

Rapping on the walls. Mysterious rains of stones. Furniture moving around by itself. Phantom voices. Unexplained fires. Invisible assaults. The symptoms of poltergeist activity are well known, but what is a poltergeist, really? Is it some type of demon, or an angry spirit whose only mission is to cause mischief and destruction? Is it the unconscious energy of a troubled living person, somehow affecting the environment from a distance? Or could it all be simply fraud or misidentification? In this comprehensive book, well over one hundred cases of poltergeist activity, from the first century to the present day, are summarized and examined. All the best-known cases are presented, from Borley Rectory to the Bell Witch, from the Great Amherst Mystery to Gef the Talking Mongoose, from Rosenheim to Tina Resch, from Enfield to the Entity. A large selection of fascinating and lesser-known accounts from all over the world are also included, and all contain testimony of the most eerie and extraordinary events. In addition, the book contains in-depth discussions of distinct patterns, stages, and theorized causes of poltergeist phenomena, drawing from some of the best research in parapsychology, neuroscience, and quantum mechanics, as well as a skeptical perspective to provide a grounded overview. The Unseen Hand is the ultimate, one-stop shop for readers interested in poltergeist disturbances throughout history and the theories behind what causes them.

The inspiring, true coming-of-age story of a ferociously determined young man who, armed only with his intellect and his willpower, fights his way out of despair. In 1993, Cedric Jennings was a bright and ferociously determined honor student at Ballou, a high school in one of Washington D.C. 's most dangerous neighborhoods, where the dropout rate was well into double digits and just 80 students out of more than 1,350 boasted an average of B or better. At Ballou, Cedric had almost no friends. He ate lunch in a classroom most days, plowing through the extra work he asked for, knowing that he was really competing with kids from other, harder schools. Cedric Jennings 's driving ambition—which was fully supported by his forceful mother—was to attend a top college. In September 1995, after years of near superhuman dedication, he realized that ambition when he began as a freshman at Brown University. But he didn't leave his struggles behind. He found himself unprepared for college: he struggled to master classwork and fit in with the white upper-class students. Having traveled too far to turn back, Cedric was left to rely on his intelligence and his determination to maintain hope in the unseen—a future of acceptance and reward. In this updated edition, A Hope in the Unseen chronicles Cedric 's odyssey during his last two years of high school, follows him through his difficult first year at Brown, and tells the story of his subsequent successes in college and the world of work. Eye-opening, sometimes humorous, and often deeply moving, A Hope in the Unseen weaves a crucial new thread into the rich and ongoing narrative of the American experience.

The murder of a world-famous physicist raises fears that the Illuminati are operating again after centuries of silence, and religion professor Robert Langdon is called in to assist with the case.
