Pulitzer Prize-winning historian Eric Foner tells the story of how, between 1830 and 1860, three remarkable men from New York city - a journalist, a furniture polisher, and a black minister - led a secret network that helped no fewer than 3,000 fugitive slaves from the southern states of America to a new life of liberty in Canada.

“A vast choral pageant that recounts the momentous work of the civil rights struggle.”—The New York Times Book Review A monumental volume drawing upon nearly one thousand interviews with civil rights activists, politicians, reporters, Justice Department officials, and others, weaving a fascinating narrative of the civil rights movement told by the people who lived it Join brave and terrified youngsters walking through a jeering mob and up the steps of Central High School in Little Rock. Listen to the vivid voices of the ordinary people who manned the barricades, the laborers, the students, the housewives without whom there would have been no civil rights movements at all. In this remarkable oral history, Henry Hampton, creator and executive producer of the acclaimed PBS series Eyes on the Prize, and Steve Fayer, series writer, bring to life the country’s great struggle for civil rights as no conventional narrative can. You will hear the voices of those who defied the blackjacks, who went to jail, who witnessed and policed the movement; of those who stood for and against it—voices from the heart of America.

From the Pulitzer Prize–winning scholar, a timely history of the constitutional changes that built equality into the nation’s foundation and how those guarantees have been shaken over time. The Declaration of Independence announced equality as an American ideal, but it took the Civil War and the subsequent adoption of three constitutional amendments to establish that ideal as American law. The Reconstruction amendments abolished slavery, guaranteed all persons due process and equal protection of the law, and equipped black men with the right to vote. They established the principle of birthright citizenship and guaranteed the privileges and immunities of all citizens. The federal government, not the states, was charged with enforcement, reversing the priority of the original Constitution and the Bill of Rights. In grafting the principle of equality onto the Constitution, these revolutionary changes marked the second founding of the United States. Eric Foner’s compact, insightful history traces the arc of these pivotal amendments from their dramatic origins in pre–Civil War mass meetings of African-American “colored citizens” and in Republican party politics to their virtual nullification in the late nineteenth century. A series of momentous decisions by the Supreme Court narrowed the rights guaranteed in the amendments, while the states actively undermined them. The Jim Crow system was the result. Again today there are serious political challenges to birthright citizenship, voting rights, due process, and equal protection of the law. Like all great works of history, this one informs our understanding of the present as well as the past: knowledge and vigilance are always necessary to secure our basic rights.
